SECTIO	N 7: Handling and storage
1.	1. Precautions for safe handling
	Avoid contact with skin and eyes, inhalation of vapours and mists.
	Don't use empty container before they have been cleaned.
	Before making transfer operations, assure that there aren't any incompatible material residuals
	in the containers.
	See also section 8 for recommended protective equipment.
	Advice on general occupational hygiene:
	Contamined clothing should be changed before entering eating areas.
	Do not eat or drink while working.
7	2. Conditions for safe storage, including any incompatibilities
	Keep away from food, drink and feed.
	Incompatible materials:
	None in particular.
	Instructions as regards storage premises:
_	Adequately ventilated premises.
7.	3. Specific end use(s)
	None in particular

### Safety Data Sheet SN FORNONET KG 6

### Protection for hands:

Use protective gloves in compliance with the UNI EN 374-3 standard of class 3 or higher (eg PVC, neoprene or rubber). The suitability and stability of a glove depend on use; for example, the duration, the contact frequency and the chemical resistance of the materials, so the final choice must consider the specific conditions of use. Respiratory protection: Not needed for normal use. Thermal Hazards: None Environmental exposure controls: None Appropriate engineering controls:

None
